ELSEVIER

Molecular Basis of Disease

Vol. 1453, 1999

BIOCHIMICA ET BIOPHYSICA ACTA
BBA

Cumulative Contents

Information for Contributors *vii*

Regular papers

Mammalian cell expression of malaria merozoite surface proteins and experimental DNA and RNA immunisation
R. Ramasamy, S.G. Yasawardena, R. Kanagaratnam, E. Buratti, F.E. Baralle and M.S. Ramasamy (Italy, Sri Lanka) 1

High lysosomal activities in cystic fibrosis tracheal gland cells corrected by adenovirus-mediated CFTR gene transfer
W. Kammouni, D. Naïmi, W. Renaud, N. Bianco, C. Figarella and M.D. Merten (Algeria, France) 14

Cation-mediated conformational variants of surfactant protein A
R.A. Ridsdale, N. Palaniyar, C.E. Holterman, K. Inchley, F. Possmayer and G. Harauz (Canada) 23

Enhanced tumor necrosis factor-α production following endotoxin challenge in rats is an early event during magnesium deficiency
C. Malpuech-Brugère, W. Nowacki, E. Rock, E. Gueux, A. Mazur and Y. Rayssiguier (France) 35

Release of cytochrome *c* from heart mitochondria is induced by high Ca^{2+} and peroxynitrite and is responsible for Ca^{2+}-induced inhibition of substrate oxidation
V. Borutaite, R. Morkuniene and G.C. Brown (Lithuania, UK) 41

The parkinsonian neurotoxin MPP^+ opens the mitochondrial permeability transition pore and releases cytochrome *c* in isolated mitochondria via an oxidative mechanism
D.S. Cassarino, J.K. Parks, W.D. Parker Jr. and J.P. Bennett Jr. (USA) 49

Mechanism of interaction of thrombospondin with human endothelium and inhibition of sickle erythrocyte adhesion to human endothelial cells by heparin
K. Gupta, P. Gupta, A. Solovey and R.P. Hebbel (USA) 63

Identification of macrophage migration inhibitory factor (MIF) in rat peripheral nerves: its possible involvement in nerve regeneration
Y. Nishio, A. Minami, H. Kato, K. Kaneda and J. Nishihira (Japan) 74

Normalization of glucose entry under the high glucose condition by phlorizin attenuates the high glucose-induced morphological and functional changes of cultured bovine retinal pericytes
M. Wakisaka, M. Yoshinari, T. Asano, K. Iino, S. Nakamura, Y. Takata and M. Fujishima (Japan) 83

Proteasome participates in the alteration of signal transduction in T and B lymphocytes following trauma-hemorrhage
T.S.A. Samy, M.G. Schwacha, C.-S. Chung, W.G. Cioffi, K.I. Bland and I.H. Chaudry (USA) 92

Age-dependent ultrastructural alterations and biochemical response of rat skeletal muscle after hypoxic or hyperoxic treatments
F. Amicarelli, A.M. Ragnelli, P. Aimola, A. Bonfigli, S. Colafarina, C. Di Ilio and M. Miranda (Italy) 105

Model multiple antigenic and homopolymeric peptides from non-repetitive sequences of malaria merozoite proteins elicit biologically irrelevant antibodies
R. Ramasamy, R. Kanagaratnam, P.D.F. Chandanie, K. Kulachelvy, M.S. Ramasamy and P.M. Dharmasena (Sri Lanka) 115

Hydrophobic lung surfactant proteins B and C remain associated with surface film during dynamic cyclic area changes
G. Putz, M. Walch, M. Van Eijk and H.P. Haagsman (Austria, Netherlands) 126

Effect of D-ribose on purine synthesis and neurological symptoms in a patient with adenylosuccinase deficiency
C. Salerno, P. D'Eufemia, R. Finocchiaro, M. Celli, A. Spalice, P. Iannetti, C. Crifò and O. Giardini (Italy) 135

A systematic approach to evaluate the modification of lens proteins by glycation-induced crosslinking
K.-W. Lee, G. Simpson and B. Ortwerth (USA) 141

In vitro cytotoxic effect of wheat gliadin-derived peptides on the Caco-2 intestinal cell line is associated with intracellular oxidative imbalance: implications for coeliac disease
R. Rivabene, E. Mancini and M. De Vincenzi (Italy) 152
Targeted disruption of the mouse ferrochelatase gene producing an exon 10 deletion
S.T. Magness and D.A. Brenner (USA) 161

Rapid reports

Osmolyte contents of cultured astrocytes grown in hypo-osmotic medium
J.E. Olson (USA) 175
Higher cholesterol in human LDL is associated with the increase of oxidation susceptibility and the decrease of antioxidant defence: experimental and simulation data
B.J. Mosinger (Czech Republic) 180

Regular papers

Maroteaux–Lamy syndrome: five novel mutations and their structural localization
G.R.D. Villani, N. Balzano, D. Vitale, M. Saviano, V. Pavone and P. Di Natale (Italy) 185
The *Npc1* mutation causes an altered expression of caveolin-1, annexin II and protein kinases and phosphorylation of caveolin-1 and annexin II in murine livers
W.S. Garver, G.S. Hossain, M.M. Winscott and R.A. Heidenreich (USA) 193
Transcriptional regulation of α_1-adrenoceptor gene in the rat liver during different phases of sepsis
L.-W. Dong, J. Yang, L.-J. Tong, C. Tang and M.-S. Liu (USA) 207
Search for retroviral related DNA polymorphisms using RAPD PCR in schizophrenia
P. Deb, T.A. Klempan, R.L. O'Reilly and S.M. Singh (Canada) 216
$(CTG)_n$ repeats markedly inhibit differentiation of the C2C12 myoblast cell line: implications for congenital myotonic dystrophy
S. Bhagwati, S.A. Shafiq and W. Xu (USA) 221
Nitric oxide mediates protein kinase C isoform translocation in rat heart during postischemic reperfusion
K Yoshida, Y. Mizukami and M. Kitakaze (Japan) 230
Electrostatic interactions during activation of coagulation factor IX via the tissue factor pathway: effect of univalent salts
M.P. McGee, H. Teuschler and J. Liang (USA) 239
Characterisation of copper-binding to the second subdomain of the Menkes protein ATPase (MNKr2)
M.D. Harrison, S. Meier and C.T. Dameron (Australia) 254
Interaction of lipopolysaccharide with human small intestinal lamina propria fibroblasts favors neutrophil migration and peripheral blood mononuclear cell adhesion by the production of proinflammatory mediators and adhesion molecules
D. Chakravortty and K.S.N. Kumar (India) 261
Adrenomedullin is upregulated in the heart and aorta during the early and late stages of sepsis
M. Zhou, I.H. Chaudry and P. Wang (USA) 273
Evaluation of fibroblast-mediated gene therapy in a feline model of mucopolysaccharidosis type VI
G. Yogalingam, A. Crawley, J.J. Hopwood and D.S. Anson (Australia) 284
Missense mutations in SGLT1 cause glucose–galactose malabsorption by trafficking defects
J.T. Lam, M.G. Martín, E. Turk, B.A. Hirayama, N.U. Bosshard, B. Steinmann and E.M. Wright (Switzerland, USA) 297

Short sequence-paper

Expression of *atrC* – encoding a novel member of the ATP binding cassette transporter family in *Aspergillus nidulans* – is sensitive to cycloheximide
K. Angermayr, W. Parson, G. Stöffler and H. Haas (Austria) 304

Regular papers

Vitamin D receptor 3′-untranslated region polymorphisms: lack of effect on mRNA stability
L.K. Durrin, R.W. Haile, S.A. Ingles and G.A. Coetzee (USA) 311
The activation of ribonucleotide reductase in animal organs as the cellular response against the treatment with DNA-damaging factors and the influence of radioprotectors on this effect
M.K. Pulatova, V.L. Sharygin and I.N. Todorov (Russia) 321
Human hepatitis B virus X protein is detectable in nuclei of transfected cells, and is active for transactivation
T. Nomura, Y. Lin, D. Dorjsuren, S. Ohno, T. Yamashita and S. Murakami (Japan) 330

Protein kinase C and amyloid precursor protein processing in skin fibroblasts from sporadic and familial Alzheimer's disease cases
M. Vestling, Á. Cedazo-Mínguez, A. Adem, B. Wiehager, M. Racchi, L. Lannfelt and R.F. Cowburn (Italy, Sweden) 341

Genetic heterogeneity in propionic acidemia patients with α-subunit defects. Identification of five novel mutations, one of them causing instability of the protein
E. Richard, L.R. Desviat, B. Pérez, C. Pérez-Cerdá and M. Ugarte (Spain) 351

Antioxidant mechanisms in apolipoprotein E deficient mice prior to and following closed head injury
L. Lomnitski, S. Chapman, A. Hochman, R. Kohen, E. Shohami, Y. Chen, V. Trembovler and D.M. Michaelson (Israel) 359

Alteration of mannose transport in fibroblasts from type I carbohydrate deficient glycoprotein syndrome patients
T. Dupre, E. Ogier-Denis, S.E.H. Moore, V. Cormier-Daire, M. Dehoux, G. Durand, N. Seta and P. Codogno (France) 369

Protective effects of 5,6,7,8-tetrahydroneopterin against X-ray radiation injury in mice
M. Yasumura, T. Morimoto, M. Takagi, H. Hirose and O. Taguchi (Japan) 378

Quantitative trait loci that regulate plasma lipid concentration in hereditary obese KK and KK-A^y mice
J. Suto, S. Matsuura, H. Yamanaka and K. Sekikawa (Japan) 385

The effect of bile salts and calcium on isolated rat liver mitochondria
S. Güldütuna, G. Zimmer, M. Leuschner, S. Bhatti, A. Elze, B. Deisinger, M. Hofmann and U. Leuschner (Germany) 396

Rapid report

In vivo modulation of rodent glutathione and its role in peroxynitrite-induced neocortical synaptosomal membrane protein damage
T. Koppal, J. Drake and D.A. Butterfield (USA) 407

Short sequence-paper

Cloning of the SmSPO-1 gene preferentially expressed in sporocyst during the life cycle of the parasitic helminth *Schistosoma mansoni*
D. Ram, F. Lantner, E. Ziv, V. Lardans and I. Schechter (Israel) 412

Cumulative Contents, Vol. 1453 417

Author Index 420
